
Virtual Styling App – Detailed Client User Flow

1. App Launch & Onboarding

App Launches

- When the user installs and opens the app, it checks whether it's their **first time using the app**.

If it's the First Time

:

- The user is shown a series of **introductory slides** highlighting the app's key features:
 - What the app does (personal styling, virtual closet, stylist bookings).
 - Benefits for users (personalized fashion, stylist consultations, offline access).
 - Quick overview of how to navigate.

2. Authentication Flow

➤ After the intro slides:

- The user is prompted to either **Log In / Sign Up** OR **Skip** authentication.

If Log In / Sign Up is selected

:

- The user goes through:
 - Email / phone verification.
 - Basic profile creation (name, preferences, maybe profile picture).
 - Once done, they move to **Virtual Closet Setup**.

If Skipped

:

- User is taken directly to the **User Type Selection** screen, where they can proceed as a **Guest** or continue later as a **Logged-In User**.

3. User Type Selection

Guest

:

- Guests can explore the app with **limited features**:
 - Browse stylist profiles.
 - View style ideas.

- **Cannot book stylists or access virtual closet.**
- Encouraged to sign up for full experience.

Logged In User

:

- Redirected to a **Personalized Home Screen** with full access to features:
 - Closet
 - Bookings
 - Stylists

4. Basic Profile & Virtual Closet Setup

➤ After signing up:

- User is prompted to set up their **Virtual Closet** — this is essential for stylist bookings.

Setup Options:

- **Set Up Now:** Proceed to adding clothing items.
- **Later:** Skip this and land on Home.

5. Virtual Closet Setup (Detailed)

➤ Step 1: Choose Categories

- Users are asked to add items under key categories:
 - **Tops**
 - **Bottoms**
 - **Shoes**
 - **Accessories**

➤ **Step 2: Style Tagging**

- For each item, the user tags it with relevant **style categories**:
 - Office
 - Party
 - Casual
 - Ethnic

➤ **Step 3: Offline Access Option**

- User can choose to **enable offline access**, which will:
 - Download closet items to device.
 - Allow usage without internet.

6. **Personalized Home (for Logged-In Users)**

This is the main hub of the app once setup is complete.

Features:

1. **Browse Stylists** – Find and book stylists.

2. **My Closet** – Manage personal fashion wardrobe.
 3. **My Bookings** – See upcoming or past styling sessions.
-

7. Virtual Closet Features

Once inside the closet:

➤ **User can:**

- **Add Items:** Upload new clothing photos.
 - **Saved Styles:** View stylist-recommended outfits.
 - **Transformation Gallery:** Before/after images of looks.
 - **Offline Closet:** Use closet even when offline.
-

8. Booking Management

My Bookings

has two tabs:

a.

Current Bookings

:

- Shows cards for each active session.
- Tap a card to:

- **Chat with stylist**
- **Manage** (Change time, Cancel, Contact Support, View Policy)

b.

Booking History

:

- View cards for completed or cancelled bookings.
 - Each card shows:
 - Date, stylist name, session type, feedback (if any).
-

9. 📌 Browse Stylists

➤ From Home, users can:

- View the **Stylist Directory**.
 - Tap on any stylist to see:
 - Bio, services offered, portfolio, available slots.
-

10. 🧑🎨 Booking a Stylist

➤ Flow after selecting “Book Session”:

Step 1: Authentication Check

- If not logged in → Prompt to login/signup.

Step 2: Closet Verification

- If the user hasn't created a **Virtual Closet**, they're asked to do so.
- Once done, they proceed to **Closet Access Setup**.

Step 3: Closet Access Setup

- Choose whether to give:
 - **Full Closet Access** to stylist.
 - **Limited Access** by selecting specific items.

Step 4: Payment

- Handled securely via **Razorpay**.
 - Only on successful payment does the session get confirmed.
-

11. 🧑💻 During the Styling Session

The user engages with the stylist in a live or scheduled session.

➤ While in session:

- Save new outfit looks to the style collection.
 - Capture photos for before-after transformation.
 - End session with a feedback & rating prompt.
-

12. ✨ Guest User Journey Summary

➤ What guests can do:

- Browse stylist profiles.

- Preview what's possible with the app.
- Explore styling ideas.
- Encouraged via CTAs to sign up to unlock full features.

 Summary Table: Major Client Use Cases

Use Case	User Actions	Outcome
First-Time User	Intro → Sign Up → Setup Closet	Personalized Home Access
Guest	Skip Auth → Browse → Signup Prompt	Limited Experience
Closet Setup	Add Items → Tag Styles → Offline Option	Closet ready for stylist use
Book Session	Stylist → Closet Access → Payment	Confirmed Appointment
Styling Session	Engage → Save Looks → End Session	Styles Saved, Feedback Given
Manage Bookings	View, Chat, Cancel, Modify	Seamless Booking Control
